## What Publishers Need to Know

### Sending review copies to Doody's

- Please send two (2) physical copies of each newly published health sciences title to us.
- One copy goes to the reviewer and one copy goes to the Editorial Chair who recruits and oversees reviewers in his/her specialty area(s).

### What to expect when your book arrives

- Each title will be indexed in our Doody's Review Service database, making it discoverable to health sciences librarians.
- Each title will be broadcast to our librarian audience in a Weekly Literature Update.
- An automated email with the title's bibliographic information will be sent to designated publisher contacts indicating that we indexed the title.
  - If we made any mistakes, please let us know.
- At the end of each month, we ship new books out for review. Books are assigned to volunteer review groups based on their primary subject.

### What to expect when the book is reviewed

- The review will be published to Doody's Review Service and may be published elsewhere in arrangement with our licensing partners.
- The review will be broadcast to our librarian audience in a Weekly Literature Update.
- An automated email with a copy of the review and Doody's Star Rating will be sent to designated publisher contacts.
- Not all books will be reviewed. We strive to publish reviews for at least 50% of the titles each publisher sends us.

### How to make the most out of your participation

- Participating comes at no cost to the publisher so be sure to send us relevant titles as they're published.
- Ensure all the right contacts are set up to receive automated updates.
- Join Doody's Publishers' Club for complimentary access to our bibliographic database and reviews.
- Cite the Star Rating and up to 30 words of the review with full attribution to the reviewer and DRS on your proprietary materials.
